**Date:** 09/16/2010 02:24 PM

---

Hi Eric,

Thanks for following up with me on this. I agree that it is critical to hold the benthic toxicity AOPC meeting as soon as possible and that it has been a challenge to schedule for valid reasons. As I understand it, the original August 19th date had to be rescheduled because the EPA team needed to meet on that date to discuss the benthic comments, and the subsequent September 9th date needed to be rescheduled due to Burt Shephard's vacation schedule. Although I can not make John attend a meeting when he is unavailable, I can keep the meeting set for September 29th if that is EPA's preference. If we move forward with that date please be advised that Nancy Musgrove will attend the meeting on behalf of Windward. If EPA would like John to attend the meeting, then we can provide you with additional dates to consider. Please let me know how you want to proceed.

Thanks again,

Bob

Subject: September 29th Meeting

Bob, at the close of this morning's meeting, we found out that John Toll was unavailable to attend the benthic meeting on the 29th. This is a meeting that has been a challenge to schedule. The 9/29 date was initially proposed by the LWG in Jennifer Woronets 9/14 email. We were informed this morning by Jennifer that this meeting was on. Please do what you can to ensure John's attendance at the meeting on the 29th and avoid having to reschedule this once again.

Thanks, Eric
